## Project Description

According to the bank document, the TA will use direct procurement for database services for bond market statistics including bond yields, interest rates, and credit spreads for all markets, key financial market condition indicators and government and corporate bonds where official data is not available. ADB will use the shopping method to procure non-consulting services in organizing trainings, workshops, and knowledge dissemination events.

The TA proposed project aims to strengthen the dissemination of information on ASEAN+3 bond markets and increase the knowledge sharing about ASEAN+3 bond market.

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
