Specifically, the proposed program will continue to: (i) strengthen public debt and fiscal risk management, in support of the Authorities' fiscal consolidation efforts and attempts to reduce financial risks in the economy; (ii) improve money market liquidity and financial market transparency, by deepening the government securities market and improving money market infrastructure; and (iii) foster the development of corporate debt and equity markets, by enhancing corporate transparency and developing legislative frameworks for new instruments and investment vehicles. The first sub-program for \$40 million was approved in October 2017; this second sub-program, for \$50 million, is expected to be approved in October 2018.
