Project Description

According to the bank's website, "The investment project will finance the first of three prioritized corridors of the planned regional rapid transit system (RRTS) network in India's National Capital Region (NCR). The Delhi-Meerut RRTS will pass through the densely populated sections of the NCR, connecting Delhi to Meerut in the state of Uttar Pradesh. The 82-kilometer corridor will provide safe, reliable, and high-capacity commuter transit services between various locations along the corridor. The investment project will finance rail track, signaling, station buildings, and maintenance facilities. It will also support capacity and institutional development of the National Capital Region Transport Corporation (NCRTC), a joint venture company of the Government of India and states of Delhi, Haryana, Rajasthan and Uttar Pradesh, that is mandated to implement the RRTS project across the NCR. A grant from the Japan Fund for Poverty Reduction will promote improved mobility and economic opportunities for women and differently abled groups along the corridor. All contracts are expected to be awarded during project 1 implementation. Tranche 1 will finance the first slice of the contract packages under the investment project."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
