Project Description

According to ADB website, the technical assistance (TA) will strengthen water governance processes at the river basin level so that lessons learned can be scaled up and applied across Mongolia and other river basins in the region. The TA will support capacity building primarily through training, learning by doing, knowledge sharing, and pilot testing small-scale interventions. The TA will analyze lessons learned and prepare them as recommendations to support longer-term institutional and policy reforms. The TA is designed to bring significant changes to the approach to planning and managing water sector investments at the river basin level across Mongolia. It will improve the effectiveness and sustainability of water sector investments and infrastructure to provide socio-economic benefits.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
