Project Description

The proposed knowledge and support technical assistance (TA) will support the development of an education sector master plan (ESMP) in Mongolia through capacity development, research and development, and policy advice to improve planning and management of the education system. The Government of Mongolia has requested the TA from the Asian Development Bank (ADB) to develop a long-term education sector plan which defines a clear roadmap towards the goals set forth in the Mongolia's Sustainable Development Vision 2030 (the Vision 2030). ADB provided technical assistance for the development of the first ESMP, 2006 2015 and its update, 2009 2015, and has been one of the major development partners in the education sector in Mongolia since the late 1990s. During the mission conducted in June 2017, ADB and the government reached agreement on the objectives, scope, implementation arrangements, costs, and consulting service requirements. The TA is included in ADB's country operations business plan, 2017-2019 for Mongolia.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
