ADB-51112-001

Jawa-1 Liquefied Natural Gas-to-Power Project

## Quick Facts

<b>Countries</b>	Indonesia
<b>Specific Location</b>	Cilamaya, Karawang, West Java
<b>Financial Institutions</b>	Asian Development Bank (ADB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	A
<b>Borrower</b>	PT. Jawa Satu Power
<b>Sectors</b>	Energy
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 250.00 million
<b>Loan Amount (USD)</b>	\$ 250.00 million
<b>Project Cost (USD)</b>	\$ 250.00 million

---

## Project Description

According to the project document, the project entails the construction, operation, and maintenance of a 1,760-megawatt (MW) load-following, combined-cycle, gas turbine (CCGT) power plant, and associated facilities.

The liquefied natural gas -the to-power (LNG-to-power) project is located about 100 kilometers (km) east of Jakarta on the Javanese coastline. The project will be developed and implemented by an independent power producer, Jawa Power Satu, under a 25-year power purchase agreement (PPA) with the Indonesian utility company PLN (Perusahaan Listrik Negara, Bahasa word for "State Electricity Company").

---

## Investment Description

- Asian Development Bank (ADB)

Ordinary capital resources **US\$ 250.00 million** (Proposed)

---

### Private Actors Description

According to company's announcement, the PT Jawa Satu Power, which is a joint venture company from PT Pertamina (Persero), Marubeni Corporation, and Sojitz Corporation, appoints an EPC consortium of General Electric (GE), Samsung C & T (Samsung) and PT Meindo Elang Indah (Meindo) as EPC contractors (EPC: Engineering, Procurement, and Construction) for the Jawa Satu Combined Cycle Power Plant with a contract value of around US \$ 1,000 million.

(Source: <https://www.jobstreet.co.id/en/companies/1261364-pt-jawa-satu-power>)

The Jawa Satu Power will construct and own the gas-fired power plant (PTLGU) with the largest combined cycle technology in Indonesia and highest efficiency all over the world. Our PLTGU is expected to operate for 25 years from mid-2021 and is able to produce electricity supply to around 1,760 MW into the national electricity network, or equivalent to the supply of 11 million houses in Indonesia.

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
