## Project Description

According to ADB website, the proposed program will support the Government of Armenia in developing and financing timely and comprehensive policy reforms in the education and health sectors. These reforms will enable the government to strengthen the efficient utilization of resources and provision of quality services in these sectors.

The proposed program will provide a much-needed policy and planning boost for system reform in the two social sectors. This is necessary not only to improve the quality and efficiency of the sectors, but also to provide a better basis for the MOES and MOH to improve the alignment of their sector strategies and resource allocations, and coordinate domestic resources and external support. The program can both complement and leverage other external support.
