Project Description

The Government of Mongolia requested for Asian Development Bank's (ADB) Knowledge and Support Technical Assistance (TA) to support the National Development Agency (NDA) to prepare a web-based information system with an integrated information database. The TA is included in the Country Operations Business Plan, 2017-2019 for Mongolia. The proposed TA will strengthen coordination and planning of development policy in Mongolia in line with the objectives of the Mongolia Sustainable Development Vision 2030. The TA will reduce duplication and overlap in government policy and provide a stronger basis for prioritizing and allocating scarce government resources to development priorities. The expected improved efficiency of available resources is particularly important given Mongolia's current economic challenges, which have resulted in fiscal consolidation of the government budget

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
