## Project Description

According to the bank document, the proposed Enhanced Water Security Investment Project will support the Government of Indonesia to improve selected dimensions of water security (economic water security and resilience to water-related disasters). The project will promote an integrated water resources management approach to:

- (i) improve water resources planning and management to meet rising demands for irrigation and non-agricultural use;
- (ii) minimize spatial and temporal variations in water availability by improving water storage and conveyance; and
- (iii) increase resilience to climate change.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
