Strengthening Information and Communication Technology Systems for Efficient and Transparent Tax

Quick Facts

Countries	Mongolia
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2017-08-23
Borrower	Government of Mongolia
Sectors	Law and Government
Investment Type(s)	Grant
Project Cost (USD)	$ 0.45 million

Project Description

The proposed knowledge and support technical assistance (KSTA) will support the Government of Mongolia to reform business processes of the tax administration and develop a high quality system and applications design for Tax Administration Information Systems (TAIS).

A stable and efficient taxation system is fundamental in making the Government more efficient, accountable, and to build trust with the citizens of Mongolia and is needed to support national economic development in a sustainable manner. Adoption of information and communication technology (ICT) for taxation is a promising approach to improve efficiency and transparency in tax administration. Successful e-tax administration is expected to increase taxation efficiency by reducing administrative costs, enhancing transparency, providing convenience to taxpayer, and increasing tax compliance. The TAIS will need to address the administrative needs of the MTA and the tax compliance requirements of taxpayers. Therefore, a TAIS needs to incorporate various taxation functions for taxpayer registration, return filing, and tax payment and be an interactive system that supports various users (e.g., taxpayers, tax agency staff, and statutory auditors). Hence, establishing a comprehensive TAIS will require substantial investments and institutional capacities in a sustainable manner.

CONSULTING SERVICES

The four international consultants (15 person-months in total: Team Leader & Tax Administration ICT Systems Expert, Tax Administration Business Process Reengineering Expert, Tax Administration System Architect, and ICT Infrastructure Expert) and two national consultants (8 person-months in total: Tax Administration Business Process Reengineering Specialist, Tax Administration Systems Design Specialist) will be individually selected and engaged by ADB in accordance with the Guidelines on the Use of Consultants (2013, as amended from time to time).

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
