Project Description

According to the bank document, under this technical assistance project (TA), ADB will conduct approximately five governance assessments on early and mid-stage direct equity investments and corporate finance transactions in which ADB is invested or is considering investing.

Based on the governance assessments, and with the agreement of the participating companies, ADB will develop action plans to strengthen corporate governance among willing participants. For companies and enterprises willing to pursue the identified improvements, ADB will provide the necessary human and financial resources to assist them. Private Sector Operations Department (PSOD) will select early and mid-stage direct equity investments and corporate finance transactions where governance challenges have been identified as priority areas for focus under this TA.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
