## Project Description

According to the project document, the project will support analysis of the implications of disruptive technologies on Indonesia. The study will cover both economy-wide impacts as well as the impacts on selected sectors and subsectors (such as manufacturing, finance, energy, e-commerce, and urban).

The sector/subsector analysis will seek to answer the following questions:

- What are the implications for economic productivity, jobs, and inequality? and
- What needs to be done to leverage the benefits and mitigate the risks?

The study will prioritize the identification of policies and investment required for increasing Indonesia's productive capability.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
