### Project Description

According to the bank website, "The project readiness financing will help review the government's priority projects and develop project pipelines for ADB financing. It will improve the readiness of water resources management priority projects by (i) completing the detailed design, and procurement and safeguards documents met with ADB requirements and procedures of the five priority projects; and (ii) improving the capacity of executing and implementing agencies for project implementation readiness. Thus, the project will contribute to the improvement of the irrigation infrastructure that will enhance water availability and increase productivity of the agriculture sector in the Punjab, and subsequently alleviating rural poverty, and improving food security and economic growth."

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
