## Project Description

According to ADB website, the Government of Mongolia requested knowledge and support technical assistance (TA) from the Asian Development Bank (ADB) to support the National Statistics Office (NSO) to improve Mongolia's capacity to measure Sustainable Development Goal (SDG) indicators. The TA is included in the country operations business plan, 2018-2020 for Mongolia. The proposed TA will enhance the use of multiple data resources so that Mongolia can better monitor its progress towards implementing the SDGs and the Mongolia Sustainable Development Vision (SDV) 2030. Through the TA, ADB will prepare detailed road maps on required actions to produce SDG indicators and will work with the NSO to operationalize these road maps. It will strengthen the government's capacity in statistics and will support the production of more SDG indicators.
