Project Description

According to the bank document, the proposed TA will help local governments establish an air pollution emission management database and develop a post-CAAP roadmap for air quality improvement in one or two selected pilot cities, which can be replicated elsewhere in the greater BTH region.

The TA will have the following outputs:

(i) develop emission inventories for the pilot cities;

(ii) assess the impacts of energy consumption and industrial structure on air quality and climate change;

(iii) establish an investment cost database of main pollution reduction measures;

(iv) establish an air pollution emission management database; and

(v) develop air quality improvement roadmap for the pilot cities.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
