Project Description

According to the bank website, the proposed cluster TA will support the implementation of key activities identified for implementation during Phase 1, including (i) assisting DMCs in refining and translating NDCs to climate investment plans, which may be implemented with ADB assistance, (ii) facilitating improved access of selected DMCs to external public and private climate finance, including support for innovative financing mechanisms, and (iii) developing methods and approaches in establishing baselines and monitoring tools for indicators to measure and gauge DMC progress on climate actions and ADB's contribution to their action. The cluster TA supports the priorities articulated in the MTR of Strategy 2020 and the draft Strategy 2030, the Review of 2011 Financial Sector Operational Plan, and internal ADB directives to promote the use of high-level technology in projects.

Three separate but closely interrelated subprojects will be processed under the cluster TA, with each subproject supporting the delivery of each of the outputs.

KSTA SP 1: Supporting the Ambitious Climate Action through the implementation of DMCs' NDCs

KSTA SP 2: Enhancing financial mechanisms to develop climate actions of DMCs

KSTA SP 3: Establishing mechanisms to measure, monitor, and report on commitments made under the Paris Agreement

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
