Project Description

According to the bank website, the project will deliver on the following outputs: (i) DMC knowledge and skills on climate investment planning in line with nationally determined contributions strengthened; and (ii) priority climate projects in line with nationally determined contributions identified.

The knowledge and support technical assistance (TA) cluster on Supporting the Implementation of ADB's Climate Change Operational Framework 2017 2030 (CCOF2030) was approved by the President on 7 December 2018. The TA cluster will help boost the capacity of developing member countries (DMCs) for meeting their climate objectives by (i) assisting in refining and translating nationally determined contributions (NDCs) into climate investment plans, which may be implemented with assistance from the Asian Development Bank (ADB); (ii) improving DMCs' access to external public and private climate finance, including support for innovative financing mechanisms; and (iii) developing methods and approaches to establish baselines and monitoring tools for indicators to measure and gauge DMC progress on climate actions and ADB's contribution to these actions.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
