Investment Amount (USD)	$ 0.75 million

Project Description

This project provides technical assistance to improve the environmental safeguards performance of infrastructure development projects in Central and West Asia. According to Bank documents, components include:

- Engaging international and national consultants to strengthen the processing and implementation of projects with respect to safeguards compliance
- Using and building on the knowledge products and relationships developed to further promote country ownership of efficient safeguards process in ADB-financed projects
- Identifying gaps between local practice and ADB policy and developing a strategy to effectively bridge these gaps on a project-by-project basis
- Providing specialist technical input from international consultants during project preparation where gaps have been identified, or there is potential non-compliance
- Providing capacity building to increase the understanding of environmental and social safeguards within the governments

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
