Project Description

According to ADB website, Tajikistan started to export power to Uzbekistan on an islanded mode in April 2018. However, in order to synchronize the systems and achieve power trade target, the relay protection system in Tajikistan has to be modernized and new interconnection points established. The proposed project will: (i) install modern relays, circuit breakers, instrumental transformers and ancillary equipment and systems at eight 220kV and two 500kV interconnection points; (ii) establish two new 500kV interconnections; and, (iii) provide capacity building to Barki Tojik staff in reliability of parallel operations.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
