Financial Institutions	Asian Development Bank (ADB)
Status	Active
Bank Risk Rating	C
Voting Date	2018-11-22
Borrower	People's Republic of China
Sectors	Energy, Finance, Industry and Trade
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.30 million

Project Description

The proposed project will support the development of industry green growth indicators and innovative mechanisms through research, capacity development, and policy advice to promote green growth of the industries in Guangdong Province, the People's Republic of China (PRC).

The PRC Government has requested the technical assistance from the Asian Development Bank (ADB) as part of its efforts to establish a comprehensive indicator and evaluation framework, system, and implementation mechanism to:

(i) improve the environmental performance of industries in Guangdong, and

(ii) support decision-making for future green financing.

Following a mission in May 2018, ADB and the government reached an understanding on the TA objectives, scope, implementation arrangements, costs, and terms of reference for consultants. The TA is included in ADB's country operations business plan for the PRC, 2018 2020.

Investment Description

- Asian Development Bank (ADB)

TA 9649-PRC: Industry Green Growth Indicators and Innovative Mechanisms for Guangdong Province

Technical Assistance Special Fund US$ 0.30 million

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
