#### Infrastructure and Public Financial Management Support Facility

#### **Project Description**

According to the bank website, the transaction technical assistance (TA) facility will support the effective and efficient implementation of projects funded by the Asian Development Bank (ADB) in Vanuatu. A number of projects are facing implementation problems and delays because of the constrained project management capacity of the executing and implementing agencies and the government''s Vanuatu Project Management Unit (VPMU). To minimize the reoccurrence of similar problems in future operations, the TA will also support the strengthening of institutional and policy frameworks for sound and sustainable project management in Vanuatu.
