ADB-52194-003

Policy Study on Integrating Poverty Alleviation and Rural Welfare Improvement with Ecological

Project Description

According to the bank document, the project seeks to enhance the capacity and institutional framework for integrating poverty reduction into eco-compensation policies and programs. It also seeks to bring impact as achieving the green economic development and ecological protection in the Yangtze River Economic Belt.

As consulting services, the ADB will engage consultants following the Procurement Policy (2017, as amended from time to time); and the associated project administration instructions and/or staff instructions on business processes for the technical assistance.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
