Project Description

According to ADB website, the project comprises the design, construction, commissioning, and operations and maintenance (O&M;) of a 135 megawatt (MW) (direct current) ground-mounted, solar power plant with single axis tracking system (along with associated infrastructure) and grid integration for further electricity sale per a fixed tariff. The project site is in southeastern Kazakhstan, about 3 kilometers (km) south of the town of Shu in the Jambyl Region and will cover 500 hectares. The main project components will include approximately photovoltaic panels, inverters, a substation and a 12 km 220 kilovolts (kV) transmission line to the existing 500kV substation. The total annual output from the project is expected to be 207 gigawatt-hours.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
