### Project Description

According to ADB, The Chennai Metro Rail Investment Project will contribute in the expansion of the existing metro rail network in Chennai, the capital city of Tamil Nadu, a state on the south-east coast of India. The investment project will develop Lines 3 and 4, connecting the central area of Chennai to key points in the south and west of the city. The first tranche will cover the initial stage of civil works related to underground tunneling and stations along the Line 4 corridor, and the construction of viaducts along the Line 3 corridor. Other contracts related to establishment of stabling depot, staff quarters, electrical and mechanical components, and other system packages will be procured subsequently. It will also include planning activities on urban renewal and livability improvement through the attached TA. The remaining tranches will gradually finance the contracts as they progress, and the periodic financing requests will be issued based on disbursement projections.

---

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
