ADB-52240-001

Project Description

According to the Bank's website, this project provides financing to support renewable energy development in Mongolia. Outputs include:

- 1. Connecting the western and Altai Uliastai grid systems to the national grid systems, to strengthen energy transmission.
- 2. Piloting pumped storage hydropower generation schemes, including Kherlen-Choir (50MW).
- 3. Piloting geothermal heat and power generation schemes, including in the Khangai mountain area.
- 4. Deploying advanced heating technologies to reduce the use of coal.

This project has been categorized as B for the Environment and Involuntary Resettlement, and C for Indigenous Peoples.

Investment Description

• Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
