### Project Description

#### DESCRIPTION

According to ADB site's information, 500 000 USD would be provided to Kyrgyzstan government with purpose of Osh-Plotina Water Treatment Plant Chlorine Neutralization Unit.

The first activity under the facility will support the physical upgrade of the chlorine neutralization unit at the Osh Plotina WTP, completed in September 2016 under the Emergency Assistance for Recovery and Reconstruction project. The unit will be upgraded to a higher international standard and provide 400,000 people with access to safe and reliable water supply. The activity will improve the development impact and sustainability of the project.

#### PROJECT OBJECTIVES

The facility will deliver for:

- (i) supporting early design work and advanced procurement actions to alleviate project start-up bottlenecks,
- (ii) strengthening the government's project implementation capacity,
- (iii) introducing new technologies, standards, and management approaches,
- (iv) enhancing the sustainability of ADB-financed investments through improved asset management practices,
- (v) bringing completed infrastructure investments in conformance with up-to-date performance standards.

### Contact Information

#### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
