

 Early Warning System

ADB-52256-009

Kyrgyz Republic : Almaty–Bishkek Economic Corridor Regional
Improvement of Border Services Project Readiness

Quick Facts

Countries	Kyrgyzstan
Specific Location	Almaty, Bishkek, Ak-Zhol
Financial Institutions	Asian Development Bank (ADB)
Status	Active
Bank Risk Rating	C
Voting Date	2023-11-10
Borrower	Government of Kyrgyzstan
Sectors	Industry and Trade, Law and Government, Transport
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.80 million
Grant Amount (USD)	\$ 0.80 million
Project Cost (USD)	\$ 0.89 million

Project Description

As stated by the ADB, Activity 4, through the engagement of project management consultants and a design firm, will support the preparation of the detailed engineering design (DED) of the project facilities, procurement documents, and due diligence documents of the ensuing Almaty-Bishkek Economic Corridor Regional Improvement of Border Services Project (ABEC RIBS). This will enhance project readiness and improve the executing agency's capacity to implement the ensuing project.

The ensuing ABEC RIBS Project will be implemented under the framework of the ABEC development program. The ABEC development program, established in 2014, seeks to connect people, businesses, and ideas to shorten the economic distance between the two cities of Almaty and Bishkek. This means reducing travel time; creating one competitive market for health, education, and tourism services; and aggregating agricultural produce in wholesale markets. The program helped define the scope of the ABEC RIBS project, supported the preparation of the preliminary facility design and cost estimates, and supported the project on procurement and engineering solutions. Under the ABEC development program, financial investments in improving infrastructure and technologies will be paired with improving BCP governance and operational procedures on the Kyrgyz and Kazakh sides of the border. The facility designs and procedures are expected to be environmentally friendly, contributing to reduced air, water, and soil pollution, and carbon dioxide emissions at the border crossing areas.

Early Warning System Project Analysis

The ADB categorized the project as follows:

Environment	C
Involuntary Resettlement	C
Indigenous Peoples	C

Investment Description

- Asian Development Bank (ADB)

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
