Project Description

According to ADB website, this TRTA will design, pilot, setup, and operationalize the Asian Development Bank (ADB) Ventures Facility (the Facility): a multi-donor trust fund that will contribute towards the sustainable development goals by deploying and scaling impactful technologies and business models throughout the developing Asia-Pacific. The Facility fills an operational gap allowing ADB's Private Sector Operations (PSOD) to provide funding at all stages of the business life cycle. Where necessary PSOD will adopt a One ADB approach, working closely with regional and knowledge departments to leverage ADB's client networks, operations, and industry knowledge. The Facility will have two components: a TA funded business support program and an investment fund.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
