Project Description

According to the bank document, the knowledge and support technical assistance (TA) will support the Asian Development Bank's (ADB's) efforts to develop human capital to advance and share knowledge for innovation and technology adoption and diffusion in its developing member countries (DMCs). Aligned with ADB's Strategy 2030, the TA emphasizes _promoting the use of innovative technology_ and _strengthening knowledge services_, to accelerate and sustain economic development in the DMCs, by addressing increasingly complex development challenges facing the region.

The proposed TA is included in the 2019 work plan of the Sustainable Development and Climate Change Department. It is in line with the President's Planning Directions for 2019 to deliver quality operations through incorporating new approaches, knowledge creation and sharing with clients, advanced technologies, collaboration, and innovation.

This TA will support the implementation of the Korea-Asia and Pacific Tech Corp (KTC) Program which underlines the cooperation agreement ADB signed in May 2018 with the Ministry of Strategy and Finance of the Republic of Korea. The KTC program will engage experts from Asia and the Pacific, including Korea to help build the capacity in ADB's DMCs to learn new skills and adopt innovation. The KTC program is being implemented in Latin American countries in partnership with the Inter-American Development Bank (IDB).

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
