Project Description

According to the bank website, "this knowledge and support technical assistance (TA) will support the introduction of market mechanisms of electricity sales and purchases in Pakistan based on the competitive trading bilateral contract model (CTBCM), developed by the predecessor TA, TA8772-PAK. The introduction of competition in the electricity subsector will be the foundation of the sector's financial sustainability in the long-run through mechanisms that remain effective even through political changes. This TA is included in the Country Operations Business Plan 2019-2021."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
