Project Description

The proposed EARRD project aims to help mitigate the adverse economic and social impacts of recent disasters in Central Sulawesi and Lombok. The EARRD will provide the Government of Indonesia with immediate and flexible financing to meet additional expenditures arising from disaster response. The project, hence, seeks to reduce the socioeconomic impact of natural disasters.

Investment Description

- Asian Development Bank (ADB)

Loan 3741-INO: Emergency Assistance for Recovery and Rehabilitation from Recent Disasters

Ordinary capital resources US\$ 500.00 million

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
