Project Description

According to the bank website, the project aims to "provide credit enhancement mechanisms to hedge against the key risks inherent in power projects in the PDMCs, which will increase private investment in the energy sector. The Program will help to (i) lower the cost of financing and encourage financing with longer tenors; (ii) attract new investors and lenders to the PDMCs, where they might not otherwise invest; (iii) generate financing opportunities for PSOD; and (iv) increase PSODs focus on frontier markets in accordance with ADBs Strategy 2030."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <https://www.adb.org/site/accountability-mechanism/main>
