Project Description

According to ADB website, the project will reduce the risks of landslide events in Kyrgyz Republic. The project interventions are expected to be both structural (including civil works and equipment) and non-structural (including capacity building, planning, and training). The project is expected to comprise three outputs: (i) landslide-prone areas protected; (ii) landslide risk management capacity improved; and (iii) disaster insurance coverage strengthened. The project outcome is expected to be: risks from landslides on infrastructure and settlements reduced. The project is expected to be aligned with the following impact: reduced human and material loss resulting from climate- and geophysical-related disasters.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
