Project Description

According to the bank document, the project aims to demonstrate rural vitalization and environmental improvement in Pingjiang County. The project will be aligned with the following impact: rural vitalization in the YREB realized. The outputs listed below will result in the following outcome: rural living environment in Pingjiang County improved.

Output 1: Water-related disaster risk management in Pingjiang County improved.

Output 2: Rural waste and sanitation management in Pingjiang County improved.

Output 3: Integrated water resources management planning and decision support capacity enhanced.

Output 4: Green procurement and ecological farming practices piloted.

IThe project design will incorporate lessons from international best practices and build on previous ADB-financed projects supporting rural vitalization, such as importance of

(i) climate-smart agricultural and ecological farming practices;

(ii) decentralized sanitation systems for rural villages;

(iii) nature-based solutions to address flooding and other risks from natural hazards;

(iv) development, participation, and empowerment of rural communities and rural enterprises;

(v) effective institutional coordination and governance arrangements, including the river chief system;

(vi) sustainable operation and maintenance; and

(vii) monitoring and evaluation systems.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
