| Sectors | Technical Cooperation, Water and Sanitation |
| Investment Type(s) | Grant |
| Investment Amount (USD) | \$ 1.20 million |

Project Description

According to the Bank's website, this project will support the government of Uzbekistan to prepare feasibility studies for irrigation and drainage subprojects. This project aims to modernise irrigation and drainage infrastructure throughout the country; to provide more reliable water systems for farms; and to improve water resource management.

According to the Bank, these feasibility studies will conduct environmental and social impact assessments.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
