Project Description

No information available at the time of disclosure.

Additional disclosure on bank's website as follow:

"The proposed loans will support Lomligor in providing long term financing for a 10-megawatt (MW) wind power project with an integrated 1.88-megawatt-hour (MWh) pilot battery energy storage system (BESS). The project will be the first private sector project in Thailand to integrate utility-scale wind power generation with battery energy storage and will have an important demonstration effect. As the deployment of intermittent generation from wind and solar increases, battery energy storage becomes vital in providing higher levels of renewable energy to the grid and helping ensure the stability and reliability of the overall power system."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
