Project Description

According to the bank document, the proposed investment in Everbridge I will provide capital to about ten middle-market companies operating primarily in the health care, business services, and consumer sectors, in India, the People's Republic of China (PRC), and Southeast Asia (Indonesia, Malaysia, the Philippines, and Thailand).

These companies often lack access to affordable capital because equity financing is generally limited and traditional bank financing is difficult to source without hard assets that can be pledged as collateral. Furthermore, many companies in emerging Asia need improved professional management to scale up their operations. The proposed investment by the Asian Development Bank (ADB) in Everbridge I would help deepen capital markets and support Asia's growing private sector.

Early Warning System Project Analysis

The ADB categorized the project E&S risks as 'FI'.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
