Project Description

According to the bank's website, the proposed project aims to "support the State of Himachal Pradesh with preparing the project and ensuring implementation readiness, thereby facilitating the timely and cost-effective achievement of the ensuing project's outcomes and outputs. To achieve high level of project readiness of the ensuing loan, the PRF will (i) support project preparation, detailed design activities, and advance procurement actions; (ii) pilot activities to demonstrate a new model of subtropical horticulture production technology, marketing and irrigation development systems to the state, which will then be scaled up under the ensuing loan; and (iii) capacity building of the executing and implementing agencies which have not implemented projects with ADB, for a smooth transition from preparation to implementation. The PRF's pilot activities will comprise new irrigation systems to service the new subtropical horticultural farming practices, and establishment of new production technologies and marketing systems.

The project will implement subprojects in seven subtropical districts: Bilaspur, Hamipur, Kangra, Mandi, Solan, Sirmour and Una. The PRF will pilot subprojects in selected blocks from four of these districts (Bilaspur, Hamipur, Kangra and Mandi) where land for the pilot horticulture production plots is already identified and participation of the farmers is agreed."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
