## Project Description

According to the bank website, "The proposed Financial Markets Development Program will support demand and supply measures to broaden and deepen the financial system in Pakistan and ground it in a strong legal and regulatory framework in line with country partnership strategy for Pakistan (2015-2019). The program was requested by the Government of Pakistan as a policy-based lending modality to be disbursed over two subprograms. The PBL will facilitate the design and implementation of reforms that are necessary to create an enabling environment for the emergence of competitive financial markets. The programmatic approach will serve to chronologically sequence the reforms in a multiyear framework (2020-2022) and bring flexibility to incorporate changes where warranted by the country's economic situation."

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
