Project Description

According to ADB, the proposed program supports the design and implementation of structural reforms necessary to create a competitive capital market and promote private investment in the country and is anchored in an overall government approved Capital Market Development Plan and Vision 2025 government agenda for Pakistan. The program is in line with the Asian Development Bank (ADB) Strategy 2030 and country partnership strategy for Pakistan, 2021-2025. The program will (i) strengthen market stability, (ii) enhance market facilitation, (iii) enhance supply-based measures, and (iv) improve demand-based measures for capital market development. It also fits in the framework of the \$6 billion International Monetary Fund (IMF) Extended Fund Facility (EFF) program approved on 3 July 2019 to facilitate improved macroeconomic management. The EFF program includes recommendations for finance sector reforms that focus on deepening access to finance, implementing a sound debt management strategy, and supporting private sector development. The program also contributes to EFF implementation and sustainability since it develops alternative sources of access to finance (i.e., capital markets), supports sound debt management and government bond market development, and helps mobilize financial resources to private investment.
