ADB-53237-002

Preparing the Climate and Disaster Resilient Small-Scale Water Resources Management Project

Project Description

According to bank website, "The transaction technical assistance (TA) will prepare the proposed Climate and Disaster Resilient Small-Scale Water Resources Management Project. The project will improve agricultural productivity and profitability through effective, participatory, and sustainable small-scale water resources management within the selected geographic areas. The project will support the small-scale water resources subsector by (i) drawing lessons from previous investments, (ii) incorporating climate and disaster resilience features in infrastructure and facilities, (iii) promoting climate and disaster tolerant crops and cropping practices, and (iv) introducing agricultural value chains."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
