## Project Description

According to the bank website, "The proposed SPBL is part of a comprehensive multi-donor economic reform program led by the International Monetary Fund (IMF), and will help the government to mitigate the significant negative economic and social impacts of an extraordinary macroeconomic crisis. The proposed economic reform program of the IMF will (i) introduce important fiscal consolidation measures, led by revenue mobilization measures, to ensure sustainable public debt; (ii) implement tight monetary policy and flexible market determined exchange rate to reduce current account deficit and moderate inflation; (iii) facilitate structural reforms in the areas of energy sector, institutions and governance to ensure high and inclusive growth; and (iv) augment social sector spending to minimize the effect of reforms on the poor."

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
