Project Description

According to the bank document "Smart and Energy Efficient City Project (SEECP) (Phase I) is included in the country operations business plan 2020-2022 for Viet Nam.

The project is aligned with the Viet Nam National Energy Efficient Program 3 (VNEEP 3 2019-2030), and has the following three outputs:

(i) energy efficiency of streetlighting and public buildings increased in Can Tho, Da Nang, Ha Noi, and Hai Phong special administrative cities; and Quang Nam and Quang Ninh provinces in Viet Nam;

(ii) policy and regulatory environment improved; and

(iii) capacity strengthened and awareness increased of various stakeholders.

The project has the following impacts: (i) national energy saving targets met, and (ii) national GHG emission reduced.

The outcome will be fossil-fuel dependent energy consumption reduced in the six targeted cities and provinces".

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
