Project Description

As per Bank detail The SRSIP will provide incentives by way of grant funds to eight focus states, for progressive improvement of effective road safety. A dynamic ranking system, based on monthly and yearly performance, in road safety interventions, will be set in place for the states. The indicators for measuring performance will be at outcome levels for accident fatalities, as well as identified interventions covering institutional, accident risk mitigation, accident response, and awareness. Subject to specified metrics being achieved, MORTH would pass on ADB's financial assistance and funds from its budgetary sources as a grant to the states.
