## Project Description

According to the bank website, "The proposed grant will provide reliable and sustainable electricity to the rural households through harnessing solar power which will contribute to poverty reduction, and gender equality. The main objective of the project is to demonstrate the viability of solar power through a pilot project and develop an enabling regulatory framework with due consideration given to the rural poverty."

### **ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
