Project Description

According to the ADB, the proposed project is aligned with the following impact: technologies harnessed for higher agricultural productivity and profitability. The project will have following outcome: industry responsiveness of advanced agricultural tertiary education and research enhanced. With BAU as a center of excellence, the project aims to accelerate agricultural technology adoption, increase job-ready graduates for private sector, and develop agricultural entrepreneurs with emphasis on providing safe and more inclusive learning environments for women. The project will also provide capacity development opportunities and competitive research grant to other universities through University Grants Commission.

Early Warning System Project Analysis

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
