Project Description

According to the Bank's website, the project is to rehabilitate or upgrade about 35 kilometers of urban and rural roads in Honiara and the surrounding regions in Guadalcanal Province, construct two rural wharves, and reconstruct and strengthen an old wharf in Honiara port. The objective is to improve connectivity, efficiency, and disaster resilience of the transportation network in Solomon Islands. The east-west Guadalcanal road corridor is in deteriorating condition, critical urban road sections have capacity constraints leading to traffic congestion, and inadequate maritime facilities aggravate efficiency of shipping services. The project will provide road and maritime infrastructure, ensuring access to basic services, increase income generating opportunities, and promote social cohesiveness.
