Strengthening Capacity, Institutions, and Policies for Enabling High-Quality, Green Development in the Vellow Piver Ecological Corridor

#### **Project Description**

The proposed knowledge and support technical assistance (TA) cluster will support the achievement of resilient ecological protection and high-quality development goals in the Yellow River Basin in the People's Republic of China (PRC). The TA cluster will design and implement approaches to support natural, human, social, and physical capitals required to enable high-quality growth and ecological protection via (i) informing strategic institutional, policy and governance reforms on key development issues; (ii) demonstrating innovative technologies and integrated solutions; and (iii) promoting knowledge sharing and strategic partnerships for multi-stakeholder and private sector engagement.

#### ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

#### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
