### Project Description

According to the bank document, "the TA will:

- (i) summarize key biodiversity values and ecosystem services of the Yellow River basin, particularly those within Henan Province,
- (ii) identify the threats and causal factors for biodiversity decline in Henan Province which are linked with the Yellow River and its tributaries, including threats originating in upstream provinces,
- (iii) identify management priorities to address these issues, focusing especially on holistic, multi-sector solutions that support the basin-wide planning approach that is being developed under the Yellow River Ecological Corridor Program, and
- (iv) support capacity building of key provincial agencies contributing to biodiversity and river basin management.

The project is in the early stage of planning and scheduling to commence processing".
