Creating Investable Cities in a Post-COVID-19 Asia and the Pacific -- Enhancing Competitiveness

## **Project Description**

According to ADB website, more than 95% of all coronavirus disease (COVID-19) cases, are in urban areas. COVID-19 has exposed the vulnerabilities of developing member country (DMC) cities, which are on the front line of COVID-19 containment efforts. The benefits of urban agglomeration, such as high density, lower mobility costs, and improved regional and international connectivity, that have made DMC cities the engines of economic growth in Asia and the Pacific have left cities exposed to the risks of COVID-19 a major challenge in the fight against the pandemic.

#### **ACCESS TO INFORMATION**

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

#### **ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
